✓ Meeting Room available on-site with AV hookup and space for everyone

✓ Up to 45 participants can play at the same time

✓ Multiple difficulty levels and friendly Gamemasters with unlimited clues

✓ Conveniently located in Westlake Village near Four Seasons & Costco

Escape rooms are the **BEST** way to bring a group together! Players are placed inside a themed room (that's never locked). Different types of puzzles make up the game. Some are easy like finding a missing key. Others are more complicated, like using a code to decipher a puzzle. All of the clues needed to solve these puzzles are in the room with you. You just need to find them, and use your ingenuity to figure out how to use them to solve each of the puzzles. The objective is to work as a team to overcome all of the challenges in front of you. There are fun surprises at every turn, and you never know what might happen next. Large groups need to divide up - into groups up to 8 to seed into their individual rooms. Get more info and the backstory to each room on our website now. Optional: competition style mode - first group to complete their room using the fewest amount of clues is deemed the overall winner.
